

RIFAT HOSSAIN

Graphic Designer | Portfolio Website Specialist

Mobile: +880 1890264574 | Email: rifatofficial39x001.com | Location: Mymensingh, Bangladesh

PROFILE SUMMARY

Versatile Graphic Designer and Web Developer with hands-on focus on building clean, conversion-ready portfolio and one-page websites for freelancers, agencies, and small businesses. Comfortable across the full visual pipeline — brand identity, social media creatives, and posters — as well as front-end build-out with HTML, CSS, and modern no-code/low-code website builders. Known for fast turnaround, pixel-accurate layouts, and a strong eye for typography and color harmony that keeps client brands consistent everywhere they show up.

EXPERIENCE

Freelance Graphic Designer & Web Developer

Self-Employed — Remote

2025 – Present

- Design and build single-page portfolio websites for designers, photographers, and small business owners.
- Create brand identity kits including logos, color palettes, and typography systems.
- Convert Figma/Canva designs into working, responsive HTML/CSS pages.
- Manage full project lifecycle from client brief to final handover and revisions.

Junior Web Developer (Internship)

E-Learning and Earning Ltd. 6 Months

- Assisted senior developers in building and testing static websites.
- Practiced HTML/CSS layout building and basic site deployment.
- Supported design-to-code handoff for small business landing pages.

SELECTED PROJECTS

- Personal portfolio websites for 15+ freelance clients across design and photography niches.
- Brand identity and social media kit for a local retail startup.
- One-page landing site for a small business product launch.
